HD Brazilian Falls Excursion

The Brazilian Falls are located on the western side of the Paraná State in Brazil. They were declared Natural World Heritage in the year 1986 by the UNESCO.

This Brazilian Park with 185,000 hectares (458,000 acres) borders the Argentinean National Park and they are divided by the Iguazu River. Both parks make this region one of the largest natural protected areas in South America.

The tour starts at the Visitors' Center, designed to be the access to the park. The building functions as an embarking and disembarking station for visitors. In order to be able to start the circuits along the catwalk floors, every visitor must take one of the modern panoramic view busses so as to move safely within the park.

The length of the catwalk floors is 1,200 meters (0.8 miles) from where it is possible to get a breathtaking view of the 275 waterfalls. The four main rapids on the Brazilian side are: Floriano, Deodoro, Benjamín Constant and Salto Unión or The Devil´s Throat.

At the end of the path everyone will get on a panoramic elevator that will take them to the bus units.

HD Argentinean Falls Excursion

The park was created in 1934 with the main aim to protect the majestic Iguazu Falls. In 1984, the UNESCO declared this place Natural World Heritage due to the beauty of the scenery and the biological diversity in this subtropical rainforest.

The Devil's Throat has to be accessed via the Ecological Jungle Train, and everyone must get off at the stop named after this waterfall. From there, there is a stroll along the catwalk which is a winding path that goes around the islands for 1,100 meters (0.7 miles) and ends in the large balconies located on the edge of falls. There are no steps along the path.

This tour departs from the hotel after breakfast to visit the city's most famous landmarks and experience the natural beauty of Rio from above.

After a scenic drive around Rodrigo de Freitas Lagoon, guests arrive at the foot of Corcovado Hill. They board a comfortable train that ascends the mountain and reaches the statue of Christ the Redeemer, located 700 meters above sea level. Once at the top, they can use the panoramic elevators or escalators to reach the base of the statue and enjoy a panoramic view of Rio de Janeiro.
